

Residual waste includes all non-recyclable waste materials.

What is allowed

What is not allowed

- Conventional light bulbs
- Cat litter
- Leftover wallpaper
- Disposable nappies
- Cigarette stubs
- Cold ash
- Vacuum cleaner bags
- Hygiene products
- Dish cloths
- Pharmaceutical products
- Dried out water-soluble wall and ceiling paints
- Foam material
- Textiles
- Photos
- Paper tissues
- Wallpaper
- Heavily soiled paper
- Hygienic paper products
- Porcelain

- Batteries
- Garden waste
- Varnishes and paints
- Paper and cardboard
- Building waste
- Fruit and vegetable waste
- Electrical appliances
- Monitors and computers
- Scrap metal
- Gas discharge lamps
- Energy-efficient light bulbs
- Plastics
- Hazardous materials

Biodegradable waste includes all organic waste materials from the garden and kitchen.

What is allowed

What is not allowed

- Small amounts of rotten food products
- Food waste
- Egg shells
- Coffee and tea filters
- Leaves, lawn and plant cuttings
- Sawdust, hay and straw (non-contaminated)
- Weeds, potting soil and flowers
- Leftover food
- Bones
- Fruit rinds/leftovers
- Vegetable waste

- Plastic packaging
- Plastic bags
- Porcelain
- Cat litter
- Ash
- Nappies
- Glass
- Scrap metal
- Residual waste
- Paper and cardboard
- Hazardous materials
- Electrical appliances
- Clothes
- Plastics

Packaging waste made of metal, composite materials, plastic as well as non-packaging of similar material should all be placed in the **recycling bin**.

What is allowed

What is not allowed

- Milk and juice cartons
- Yogurt pots
- Washing detergent bottles
- Plastic bags
- Polystyrene packaging
- Tin cans
- Non-returnable drink cans
- Hairspray bottles
- Tubes
- Beer bottle caps
- Protective covers
- Buckets

- Electrical appliances
- Lights and lamps
- Batteries
- Textiles
- Clothes
- Shoes
- Building, garden or organic waste
- Wood
- Paper and cardboard
- Glass
- Foam material
- Residual waste
- Hazardous materials

Paper, card and cardboard all belong in **paper waste**.

What is allowed

What is not allowed

- Newspapers
- Magazines
- Glossy magazines, brochures
- Catalogues
- Letter paper, envelopes
- Books (without a plastic cover)
- Computer paper
- Card and paper packaging
- Wrapping paper
- Egg boxes
- Folding boxes

- Photos
- Paper tissues
- Wallpaper
- Heavily soiled paper
- Hygienic paper products
- Residual waste
- Building, garden or organic waste
- Plastics
- Scrap metal
- Hazardous materials
- Electrical appliances
- Glass
- Clothes

Hazardous Materials

Electrical and electronic devices

Hazardous materials pose a serious danger to the air, earth and ground water, which is why it is important to dispose of these materials in the correct manner.

Harmful substances from private households can be disposed of using the **mobile hazardous waste unit** or dropped off at our **communal collection points** in AEZ Watenbüttel and at our Frankfurter Strasse premises during the respective opening times.

The **schedule for the mobile hazardous waste unit** can be found online at www.alba-bs.de.

Hazardous liquids are to be delivered in securely closed containers.

The following harmful substances can be disposed of using the mobile hazardous waste unit

- Varnishes and oil paints
- Solvents, heating oil, diesel, acids, alkaline solutions
- Chemicals, household and drain cleaning products
- Wood and plant protection products
- Anti-corrosion agents
- Spray cans, foam insulation cans
- Batteries for cars and other appliances
- Car maintenance products
- Fluorescent tubes and energy-efficient light bulbs
- Disinfectants and adhesive agents
- Batteries

The following harmful substances **CANNOT** be disposed of using the mobile hazardous waste unit

- Gas bottles and asbestos waste
- Wall and ceiling paints are water soluble and should be dried out and disposed of in the residual waste container; the same applies to protective covers, brushes and pharmaceutical products.

Small electrical appliances

- Toasters
- Radios
- Monitors
- Computers and printers
- Razors
- Pocket calculators
- Fluorescent tubes
- Gas discharge lamps and energy-efficient light bulbs
- Coffee machines
- Drills

Large electrical appliances

- Cookers
- Washing machines
- Tumble dryers
- Refrigerators
- Freezers
- Televisions
- Lamps

The German Electrical and Electronic Equipment Act (Elektronikgerätegesetz), which regulates the **free collection** of old electrical appliances has been in force since 2005.

Small and large electrical appliances can be disposed of **free of charge** at our **communal collection points** in AEZ Watenbüttel and at our Frankfurter Strasse premises during the respective opening hours.

Large electrical appliances can also be picked up by the bulk waste collection service for a fee of EUR 15.00. In order to do this, we require a written registration stating your name, the collection address and the number of objects to be collected.

Small electrical appliances can also be handed in to our mobile hazardous waste unit **free of charge** or disposed of at various locations in Braunschweig using the new **collection containers**.
